Subject: RE: LoanCloser

Hi Anthony,

I am happy to provide my testimony to the smooth process I have just experience during the refinancing of my home loan.

I found the LoanCloser product easy to use and it made the communication between the involved parties quick and efficient.

Receiving both SMS messages and e-mails when any communications were sent to me was great. I really appreciated the

ability to log in and see what the current status of the refinance was at anytime as well as quick access to documents when required.

I can only conclude that this was a marked improvement to my previous experiences with Loan settlement processes.

Hope this of use.

Regards,

Mike Benfell
