To Whom it May Concern

Loan closer is a progressive open communication tracking system that allows all parties to the settlement process communicate.

It lists full particulars of each file for perusal, disclosing notes, attachments & registration details

It is a very efficient, innovative, user friendly system that ends up giving the complete service

It has helped our business in a number of ways, but the main thing it has reduced the amount of incoming & outgoing phone calls & facsimiles.

It is a pity that some of the banks don't follow a similar system and we recommend that banks and credit unions take a serious look at Loan closer

The writer has been the settlement & registration agent for Purcell Partners for 3 years & is one of the most experienced all rounders in the industry, with over 30 years servicing Lenders and regional banks

Peter Bain
