

I would like to heartily endorse the Loan Closer application. I was able to use this service and found it extremely useful in keeping myself up to date on the progress of my loan application. No longer having to call the solicitor and being put on hold it was quiet and efficient.

Being able to submit forms was also a very positive step as I could do it from home and see that the forms had actually arrived. Being kept up to date every step of the way is very important to one who is sweating on the progress of a loan especially one as important as a mortgage.

Thanking You
