Dear Gregory

Purcell Partners is a Victorian law firm that specialises in mortgage document preparation Australia-wide. They have a web based loan processing system called LoanCloser which is an industry first and has brought significant savings to our credit union.

We have been using the system throughout our branch network since December 2008. The system has proven to be quick accurate and affordable and we highly recommend Purcell Partners and their LoanCloser system to be a panel solicitor for Integris.

Yours sincerely

Chris Niven
